

We are excited to present the agenda for the Plasmamatreat Technology Days 2025 – an event full of innovation, exchange, and hands-on insights into our plasma technologies.

Experience first-hand how our pioneering innovations are shaping the future of surface treatment. Take the opportunity to engage with our experts and fellow industry leaders.

● KEYNOTES AND PRESENTATIONS

The event will be opened by Christian Buske, CEO of Plasmamatreat. The following keynotes will provide exclusive insights into groundbreaking technologies and developments.

On the second day, we'll focus especially on technological innovations and practical applications.

● INTERACTIVE WORKSHOPS AND DISCUSSIONS

Deepen your knowledge through our workshops and presentations. Our partners and moderators will guide you through specialized topics and are available for your questions and discussions.

You can switch between topics every 30 minutes to gain a broad spectrum of knowledge.

● COMPANY TOURS

Running parallel to the workshops and presentations, you will gain insight into our family-owned company and the wide-ranging applications of plasma technology across nearly all industrial sectors. Be inspired by 30 years of expertise and innovation.

We look forward to shaping the future of surface treatment together with you.

● PARTNER EXHIBITION

In parallel with the workshops, our partners will showcase practical solutions and new technologies. Take this opportunity to discuss specific challenges and get your questions answered.

We are delighted to welcome many partners to our exhibition, including Beckhoff, OTTO-CHEMIE, and CeraCon.

Look forward to an exciting and varied event where your personalized agenda will be tailored to your specific questions.
